

14 October 1966

## MEMORANDUM FOR THE RECORD

SUBJECT: Trip Report

The week of 18 September 1966 was spent at [redacted] 25X1  
[redacted] to become familiar with spatial filtering, both 25X1  
theoretically and experimentally. [redacted] 25X1  
provided assistance in the theoretical part of spatial filtering, while  
[redacted] handled the experimental portion. 25X1

It was learned that hologram filtering experiments would begin in the near future. Experiments will be carried out on an 8-foot optical bench mounted on a granite slab in order to eliminate any vibrations that might occur otherwise.
